FOR THE AMSTRAD CPC464, CPC664, CPC6128

BEEBUG SOFT

LOCKSMITH

Unlock the Secrets of your Tapes & Discs

SUPPLIED ON DISC

BEEBUGSOFT

LOCKSMITH

Unlock the secrets of your tapes & discs

Just one program for all systems

Locksmith will make back-up copies of your favourite programs on disc or tape. It is ideal for tape users who are upgrading to a disc system and want to transfer their programs onto disc.

Locksmith will give you full information about what is happening and help you to understand about protection, disc/tape headers etc and how programs have been saved on your tape or disc.

```
ltdisc,"game1"

Insert tape in Datacorder
Press PLAY then press any key:

READING

Filename        : game1
File Type       : Basic (F)
Block Number    : 07

Insert disc into drive
Press any key:

WRITING

Filename        : game1

COPY COMPLETE

Ready
█
```

TAPE to TAPE Handles large Basic programs, headerless files and different loading speeds

TAPE to DISC Transfer whole tape or just selected files to disc

DISC to DISC Backup of whole disc or selected files with an option to change the program name

DISC to TAPE The whole disc or just individual files may be transferred to tape

LOAD PROTECTED BASIC PROGRAMS You may now load and edit "protected" Basic programs

ASCII TRANSFER Transfer Ascii files from tape to disc, or disc to tape

READ TAPE/DISC HEADERS Displays Block no, Start address, File type, Length, End address etc

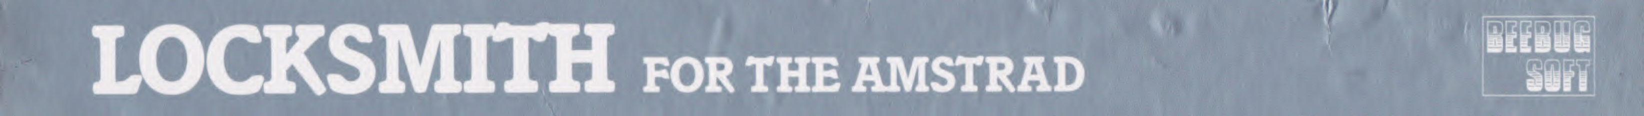

RELOCATOR A relocator is provided for programs that would overwrite the disc memory space

HELP Gives an on-screen summary of the Locksmith commands and their parameters

Locksmith is available on tape, disc or Rom. The Rom version is compatible with all known Rom boards, and gives the added advantage of always being ready for use and allowing you to work on even larger programs.

BEEBUGSOFT, Dolphin Place, Holywell Hill, St. Albans, Herts. AL1 1EX
